	Assessment	Quiz	10 min	Individual or group activity
	Reinforcement	Role Play	10-20 min	Team activity
		Journal	10 min	Individual activity

Tips & Tricks

Schoolbeat is flexible and can be adapted to your needs. Please read on for a few tips or **contact the customer success team for a personalized plan of action.**

1

We recommend that students complete one activity right after watching a video to give them a chance to reflect immediately on what is being modeled in the movie.

2

The Discussion activity can be segmented into two parts if needed. You could also select only a couple of questions to discuss or do the activity in teams, pairs, or as a group. Plan a minimum of 5 min. per question.

3

You can include videos and activities from the **Zen Zone** during transition time to help your students get into the right mindset for the next activity.

4

Explore the **Keys to Action** or the **Book References** to integrate the theme into your everyday teaching practices.

For more explanations and details on each activity, refer to the pedagogical guide. Note that those times represent the length of the activity once the students are already placed and ready to go.
